

Your S.M.I.L.E. Program in 2018 27th Year

God continues blessing His program with helping hands!

Katelyn has been enjoying riding for seven years. She not only is successful in her riding skills but also has raised money for S.M.I.L.E. the past three years. **(See story inside)**

When Dexter came to his first day at S.M.I.L.E., his parents thought they would never find something that Dexter would like, everything else had failed. To their surprise, Dexter was up on his pony and enjoying it.

Mom was so happy, she was crying to see him accomplish something. **(See story from parents)**

In Honor of Gene Galyen's memory

Gene was missed by his fellow helpers and his students, this year, but Gene was not forgotten. Gene loved talking to the riders, the young helpers and the horses. God gave him a heart of giving of himself and helping others.

Gene helped with the wheelchair students and others two days a week for ten years at S.M.I.L.E. His favorite student was Stephanie. (Pictured) He was always joking with her and they would laugh.

All Gene's kindness lives on in everyone he helped.

Norfolk Public Senior High

30 Norfolk Public Senior High, Junior High, and Elementary students took lessons in 2018

Thank you for helping make this affordable for everyone through your generous support. **Thank you** for making a difference in each one's lives and giving their families **Hope**.
